Education

Vignan's Institute of Information Technology   **Aug 2022 – May 2026**

Bachelor of Technology in Information Technology – 9.52/10   *Duvvada, Visakhapatnam*

Technical Skills

- C++, Java, Python
- HTML5, CSS3
- JavaScript, React.js
- MySQL, MongoDB
- Git, GitHub
- SDLC
- AWS cloud
- Data Structures
- OOP
- System Design
- Computer Networks
- Operating System

Experience

Brainwave Matrix Solutions   **Aug 2025 – present**

Python Developer Intern

- Developed an AI-powered automation tool to automate active job applications, enabling tailored resume submissions to over 100 relevant jobs in under an hour.
- Implemented core automation for job search, filtering, resume customization, and application submission using Python.
- Handled dynamic LinkedIn elements, automated form filling, and simulated browser interactions for seamless job applications using JavaScript.
- **Technology:** Python, JavaScript, HTML, PowerShell.

Codetech IT Solutions   **Jun 2025 – Jul 2025**

Web Developer Intern

- Developed a weather forecast website utilizing a weather API to fetch real-time data.
- Implemented features for displaying current weather conditions, forecasts and weather alerts.
- **Technology:** HTML, CSS, JavaScript

Projects

AI-powered LinkedIn Job Application Bot | *Python, HTML, JavaScript, PowerShell*

- Developed a bot that navigates job portals, applies filters, and auto-submits applications with pre-configured answers.
- Implemented keyword-based and experience-based filters to automatically skip irrelevant or blacklisted job postings.
- Designed a system to capture applied/failed job details, HR info, and skill requirements, storing them in Excel for analysis.
- Enabled background execution with a headless browser for uninterrupted, continuous application processing.

Weather Forecast Website | *HTML, CSS, JavaScript, React.js*

- Developed a responsive web application to display real-time weather information for any searched location.
- Integrated Open Weather API to fetch and display weather data including temperature, humidity, and weather conditions.
- Implemented search functionality to retrieve weather updates by city or location name.

Certifications

*PCAP- Programming Essentials in Python **(Cisco)**

*CSA - Certified System Administrator **(Servicenow)**

*CAD - Certified Application Developer **(Servicenow)**

*Google Data Analytics Professional Certificate **(Google)**

*GFG 160 Days of problem solving **(Geeks For Geeks)**

Achievements / Accomplishments

*Shortlisted for **Infosys Springboard – Pragathi: Path to Future (Cohort 2)**, a competitive 12-week career readiness program.

*Received the **Academic Excellence Award** in recognition of outstanding academic performance.

*Achieved **3star rating (1609)** on GeeksforGeeks, demonstrating strong problem-solving skills in algorithms and data structures.

***3star in C++ and JavaScript** – strong proficiency in competitive coding challenges (HackerRank).
